### Green Country Soccer Association

#### End of Game Procedures Related to Reporting of Scores for U07 to U19 Matches

Coaches,

In past years, for some age groups, the League Commissioners were responsible for updating the game scores within Got Soccer. Effective immediately, ALL U07 to U19 game scores will be updated by the coach or an authorized team representative. League Commissioners will no longer be responsible for updating the scores.

On GAME DAY, the winning team, or in the event of a tie – the home team, will take both teams game cards and call in the score. CALL IN game scores by dialing the number on your game card, press 1 to update then enter the Event ID and press #. Next, it will ask for the PIN listed then press #. Enter the game number and press #. Enter scores following all instructions.

The requirement to send the game forms to the League Commissioner is still in place. Your league commissioner will be contacting you regarding their preference for receipt of the game forms. Options MAY include: (1) Faxing, (2) Snail Mailing, and (3) Scanning and Emailing.

In summary, the major change is that the responsibility for updating the scores now resides with the winning coach.
